Accessories List

The following accessories are included with TV:

User Manual × 1 Base Stand × 2 Power Cord × 1 Remote Control × 1
 Frame Assembly × 2 Cable Clamp × 8(65") Wall Mount Assembly × 1 Warranty Card × 1
 Screw × 4(attach the TV stand) AAA Battery × 2(for solar powered remote, the battery is built in)
 Cable Clamp × 6(55")

NOTE

- The accessories may be different from the list above due to different models, countries / regions. Please refer to the actual accessory bag.
- The power cord included with this TV is not rated for in-wall use. It is designed for standard use and should not be installed within walls.

Important Notice

Paragraphs beginning with the symbol  indicate important instructions, tips or conditions for the following settings.

 **For your own safety and the optimal performance of your TV, ensure to read the safety instructions before performing any installation.**

Compatibility with 3rd party products, software and services are not guaranteed. We cannot be held liable for any damage or loss suffered whilst operating, using or connecting to incompatible devices or apps.

The recording and playback of content on this or any other device may require permission from the owner of the copyright or other such rights in that content. It is your responsibility to ensure that your use of this or any other device complies with applicable copyright legislation in your country. Please refer to that legislation for more information on the relevant laws and regulations involved or contact the owner of the rights of the content you wish to record or playback.

Safety Instructions

To ensure safe and correct use of this product, always comply with the following precautions to avoid dangerous situations and damage to your unit:

	CAUTION RISK OF ELECTRIC SHOCK DO NOT OPEN	
CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). NO USER-SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.		

The lightning flash with arrowhead symbol, within an equilateral triangle is intended to alert the user to the presence of uninsulated dangerous voltage within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

The intended use and ambient conditions for this TV

This TV is intended for the rendering of video and audio signals, on a table-top or wall-mounted, in a home or office environment. It must not be used in rooms with a high level of humidity or dust concentration. The warranty is only valid if used as intended by the manufacturer.

WARNING

High humidity and dust concentration may lead to current leaks in the device. To reduce the risk of fire or electrical shock:

- Do not expose this unit to rain, moisture, dripping or splashing water, and do not place objects filled with liquids, such as vases, cups, etc. on or over the unit.
- Do not touch the TV with wet hands.
- Do not expose to direct air-conditioning and keep candles or other naked flames away from the TV at all times.

If the TV is moved from a cold environment to a hot environment, leave it switched off for at least an hour to avoid condensation. If used outside, make sure it is protected from moisture.

If you notice anything unusual, immediately remove the power plug.

In case of fire, use preferably a CO₂ gas or powder fire extinguisher. If such extinguishers are not accessible, try to isolate the electrical supply before using a water fire extinguisher.

WARNING

Stability Hazard

A television set may fall, causing serious personal injury

or death. Many injuries, particularly to children, can be avoided by taking simple precautions such as:

- ALWAYS use cabinets or stands or mounting methods recommended by the manufacturer of the television set.
- ALWAYS use furniture that can safely support the television set.
- ALWAYS ensure the television set is not overhanging the edge of the supporting furniture.
- ALWAYS educate children about the dangers of climbing on furniture to reach the television set or its controls.
- ALWAYS route cords and cables connected to your television so they cannot be tripped over, pulled or grabbed.
- NEVER place a television set in an unstable location.
- NEVER place the television set on tall furniture (for example, cupboards or bookcases) without anchoring both the furniture and television set to a suitable support.
- NEVER place the television set on cloth or other materials that may be located between the television set and supporting furniture.
- NEVER place items that might tempt children to climb, such as toys and remote controls, on the top of the television or furniture on which the television is placed.

If your existing television set is being retained and relocated, the same considerations as above should be applied.

■ Moving/Transportation

Before moving this TV, disconnect all cables and move in the vertical position only. Grasp the device on the upper and lower edges of the frame.

- Do not press or put stress on the front panel of the TV. It may take two or more people to carry larger TVs.

If you have to briefly lay down the TV, place the unit with its entire front surface lying flat on soft material.

The LED screen is made of glass and can break if is not handled properly. Always wear rubber gloves to carry the unit. If the LED screen is damaged, liquid crystal might leak out. In case of skin contact, immediately rinse thoroughly with water.

■ Power Supply

Incorrect voltages can damage the TV. Only connect this unit to a power supply with the correct voltage and frequency noted on the type plate, using the supplied power cable.

The power plug must be easily accessible so that the device can be disconnected at all time. The unit is live, even if in standby mode, as long as the unit is connected to a power outlet.

It is recommended that this unit is placed on a dedicated circuit.

- Do not overload the power outlets by connect too many appliances to the same outlet. Overloaded wall outlets, extension cords, etc. are dangerous and can result in electric shock and fire.

- Switch off the television after use and unplug it if it is not going to be used for.

After power off, don't turn it on again in 5 seconds. Frequent switching power supply in a short period of time can cause abnormal TV.

■ Power plug and power cable

- Do not touch the power plug with wet hands.
- Do not place heavy objects on the power cable. Route the cable so that it is not kinked or laid over sharp edges, walked on or exposed to chemicals. A power cable with damaged insulation can cause electric shock and fire.
- Pull the power plug, NOT on the cable when disconnecting. The cable can become damaged and cause a short circuit if pulled on.
- Do not place the power cable near a high temperature object.
- Do not move the TV with the power cable plugged into a socket.
- Do not use a damaged or loose power cable, or a damaged socket outlet.
- Do not use any power cords other than the one supplied with this unit.
- MAIN plug on the power cord is used as the disconnect device, the disconnect device and socket-outlet shall be easily accessible.

■ Set-up

Check that the location is suitable to bear the load of the TV. Place on a level, sturdy and horizontal base. Ensure that the unit does not hang over the edge of the base when placed in or on furniture. If placed on a cart, use caution when moving to avoid the unit from tipping over.

- Choose a good location for the television, in a clean place, away from sources of heat (sun, radiators, fireplaces), plants (pollen, dust, water) and the ground (risk of knocks, dust).
- Place the unit in a normal upright horizontal position. It must never be operated vertically, lying flat or hanging overhead from the ceiling.

When mounting the TV on a wall, follow the instructions supplied with the wall-mount, make sure not to install the TV by hanging the power and signal cables on the back of the TV.

■ Air ventilation and high temperatures

Install your TV only where there is proper ventilation, and ensure that there is at least 10 cm free space on the sides and 20 cm above the unit for air circulation. Excessive heat and obstruction of ventilation could lead to fire or early failure of some electric components.

- Do not place cloth, paper or other materials over the openings on the top, sides or bottom of the appliance.
- Take care not to touch the ventilation openings since they may become hot.
- Do not insert foreign objects into the TV through the vents.
- Prevent small items from getting into the interior of the device through the ventilation slots. Such

objects may cause short circuits, which may cause fire.

- If something should get inside the unit, immediately unplug the power plug of the device and contact service support.

■ The Stand

- Do not use any stand other than the one supplied with this unit.
- Do not modify or use the stand if it becomes warped or physically damaged.
- During setup, make sure that all the screws are securely tightened.
- Ensure that the TV does not suffer any impact during the attachment of the stand.
- Ensure that children do not climb onto the stand.
- Attach or remove the stand with at least two people.

■ The LED screen

Despite thorough care when manufacturing this display, it cannot be 100% guaranteed that no sub-pixel defects will occur due to technical reasons. These cannot be considered as a device defect in terms of the guarantee. They will not affect the performance and reliability of the TV.

To prevent "image burn", avoid displaying still images for long periods of time, there is a possibility that a copy of the image may remain. If the aspect ratio is set to 4:3 for a long period of time, image burn may occur on the black areas. Image burn is not covered by the warranty.

- Do not apply strong force or impact on the display panel.

Avoid touching the LED screen or touching it for long periods of time. Doing so may produce some temporary distortion effects on the screen.

■ Radio waves

- Do not use the TV in any medical institutions or locations with medical equipment. Radio waves may interfere with medical equipment and cause malfunction.
- Do not use the TV near any automatic control equipment such as automatic doors or fire alarms. Radio waves may interfere with automatic control equipment and cause malfunction.

If you have a cardiac pacemaker, keep a distance of at least 22 cm from the TV. Radio waves may interfere with the operation of a pacemaker.

■ Built-in wireless LAN

- Do not connect to wireless networks that you do not have the usage rights for. Data transmitted and received over radio waves may be intercepted and monitored.

The built-in wireless LAN uses 2.4 GHz and 5 GHz frequency band. To avoid malfunctions or slow response caused by radio wave interference, keep the TV away from devices such as other wireless LAN devices, microwaves, mobile phones, and other devices that use 2.4 GHz and 5 GHz signal.

■ Warning about off-gassing

New furniture, carpet, paint, building materials and electronics can release chemicals into the air through evaporation. After you set your TV up and turn it on for the first time, you may notice a slight smell within a couple of hours. This is because some components of TV are heating up for the first time. The materials that we use fully meet the environmental requirements and regulations. Your TV is working just fine and the fumes from the off-gassing will diminish eventually.

■ Supervision

- Do not let children play unsupervised close to the TV. It could tip over, be pushed off or pulled down from the stand surface and injure someone.
- Do not allow a switched-on TV to run unattended.

■ Volume

Loud music and noises can lead to irreversible damage to your ears. Avoid extreme volume, especially over long periods and when using headphones.

If you hear a drumming noise in your ears, turn down the volume or temporarily stop using headphones.

■ Thunder Storms

Pull out the power plug and all connected antenna cables from the TV during a thunderstorm. Overvoltage caused by lightning strikes can damage the TV via the antenna system, as well as the wall socket.

■ Long periods of absence

As long as the power plug is connected to a live socket outlet, the TV will consume power even in standby mode. The power plug and all connected antenna cables should be disconnected out during long periods of absence.

■ Cleaning and care

CAUTION:

Unplug the power cord prior to cleaning the TV.

Clean the screen with a soft, dry cloth after switching off and unplugging the television. And avoid glass sprays and other household cleaning agents. Do not use any chemicals.

- Do not subject the surfaces to insect repellent, solvent, thinner or other volatile substances. This may degrade the surface quality.
- Do not spray water or other liquids directly on the TV. Liquid inside the TV could lead to product failure.
- The surface of the display panel is treated and may be easily damaged. Take care not to scratch it with fingernails or other hard objects.
- Also wipe the power plug with a dry cloth at regular intervals.

■ Service/Repair

Never remove the cover/back of the TV; there are no user serviceable parts inside. Refer all service to qualified service personnel.

■ Packaging

Keep the anti-moisture materials and plastic bags out of reach of children.

Plastic bags can cause suffocation and the anti-moisture material is harmful if swallowed. If swallowed by mistake, force the patient to vomit and visit the nearest hospital.

■ Modification

Do not attempt to modify this product in any way. Unauthorised modification could void the warranty of this unit, cause electric shock and fires.

■ Remote Control batteries

- Store the remote control carefully, do not expose it to liquids and check the condition of the remote control batteries regularly to prevent corrosion of the contacts.

For replaceable battery:

- Incorrect installation may cause battery leakage, corrosion and explosion.
- Replace only with the same or equivalent type.
- Do not mix old and new batteries.
- Do not mix different battery types.
- Do not use rechargeable batteries.
- Do not burn or break up batteries.
- Be sure to dispose of batteries correctly.
- Do not expose batteries to excessive heat such as sunshine, fire or the like.

For built-in battery:

- Do not disassemble the product or attempt to remove the battery by yourself.
- Do not dispose it into fire.
- Do not crush or puncture the battery.
- Prevent it from falling down.
- Use the correct charging device.
- Be sure to dispose of battery correctly.
- Do not expose battery to excessive heat such as sunshine, fire or the like.

■ Outdoor Antenna Grounding

If an outdoor antenna used, be sure the antenna system is protected against voltage surges and built-up static charges.

■ Disposal

Refer to the recycling section of this manual.

AC voltage: This symbol indicates that the rated voltage marked with the symbol is AC voltage.

Class II product : This symbol indicates that it does not require a safety connection of protective earthing (ground).

Installation

CAUTION

- Be sure to disconnect the AC power cord before installing a stand or wall mount brackets.
- The display on your TV is fragile. Make sure the TV screen is not scratched or damaged by hard objects or from pressure. Please do not touch the TV screen with your hands to avoid making the screen dirty.
- After the stand or mount installation is completed, make sure the TV is steady on a table or firmly attached to a wall mount, before removing all protective film, if any. If the protective film was not removed, the installation of the frame will be affected.
- Before installing the frame, please install the TV stand or the wall mount.

► Installing the stand

Follow the illustrations and textual instructions below to complete the installation steps:

1. Carefully place your TV on a soft, flat surface to prevent damage to the TV or scratching to the screen.
2. Take out the 2 stands from the accessory bag and then insert the stands into the bottom slots of the TV.
3. Secure the stands to the TV with the 4 screws in accessory tightly.

► Installing cable clamps and managing cable

1. Tear off the sticker at the back of cable clamps, paste cable clamps into the holes in the cable raceway. (See Fig.1)

NOTE:

- Make sure the open-ended part of the cable clamp is positioned at the middle of cable raceway.
- The picture is only for reference, please refer to the actual product.

2. Manage cables and power cord with cable clamps. (See Fig.2)

! CAUTION

Before installing the wall mount on the wall, make sure that you have connected and managed power cord and all cables you need.

Fig.1

Fig.2

► **Installing the Wall Mount Bracket (included)**

Follow instructions provided with the wall mount bracket. If it is not correctly mounted, the TV may fall and cause property damage or personal injury.

NOTE: Before wall-mount installation, if there are screws in the bracket holes on the TV back cover, please remove them first. The removed screws cannot be used for attaching the wall mount.

Wall mounting solution I : Use bracket holes A1, A2 and use standard wall bracket. The screws and wall bracket are in the wall mount assembly.

► **Installing the Wall Mount Bracket (not included)**

Follow instructions provided with the wall mount bracket. If it is not correctly mounted, the TV may fall and cause property damage or personal injury.

NOTE: Before wall-mount installation, if there are screws in the bracket holes on the TV back cover, please remove them first. The removed screws cannot be used for attaching the wall mount.

Wall mounting solution II : Use bracket holes B1, B2, C1, C2. It is compatible with 300×200 (55")/300×400 (65") VESA wall mount, M6 screws, the screw length is 9.5 - 11.5 mm.

CAUTION

- Follow instructions provided with the wall mount bracket. If it is not correctly mounted, the TV may fall and cause property damage or personal injury.
- To prevent internal damage to the TV and to ensure it is mounted securely, be sure to use fixing screws (not included) that are 9.5 - 11.5 mm in length when measured from the attaching surface of the rear cover.

Wall mount hole pattern(mm)	300 × 200 (Wall mounting solution II) (55") 300 × 400 (Wall mounting solution II) (65")
Wall mount screw size	M6
Number of wall mount screw	4

- We do not recommend hanging the TV on a slanted wall, and when wall mounting make sure your television remains parallel to the wall and does not lean forward.

NOTE

- If installed on a ceiling or slanted wall, or the television installed is not parallel to the wall, the television may fall and result in property damage or severe personal injury.
- If you have additional questions, please contact the wall mount manufacturer or the retailer from which you purchased the TV.
- The diameter and length of the screws differ depending on the wall mount bracket model.

Installing the frame

CAUTION

- Don't move the TV with the frame.
- After installing each frame, do not strongly pull or shock it. Failing to do so may cause it fall off the TV.
- Before installing the frame, please install the TV stand or the wall mount. If you want to remove the TV stand or the wall mount that has been installed, please remove the frames first.
- Before installing frames, remove the protective film first.** If the protective film was not removed, the installation of the frame will be affected.

After the TV stand or the wall mount installation, attach the frame to your TV. You can choose the frame provided in the accessories.

- Install the upper frame.
- Install the lower frame which is with holes.
- Install the left and right side frames into the grooves on both sides of the upper frame, then push the bottom part of the side frames to match the lower frame.

(CAUTION: Avoid finger pinching during assembly!)

- Install the four plastic clips from the back of the TV.

NOTE: If you have installed the TV on the wall, two or more people are needed to lift the TV up slightly so that you can install the four plastic clips conveniently. (See Fig.3, Fig.4)

Warning:

When installing the frames, please be sure to install the plastic clips on all four corners of the back of the frame. Failure to install these clips may cause gaps, misalignment, or instability of the frame.

NOTE:

- While removing the frames from the TV, remove them in the reverse order of the assembly. Use a flat-head screwdriver or other suitable tools to pry the plastic clips up along the groove. (See Fig.5)

Appearance and Connection

- Power indicator
- Power button(Standby/Source)
- Motion detector

CAUTION

- Do not block the detector, otherwise the motion detector and the brightness can be affected.

AC INPUT

NOTE

- Satellite supports power supply for satellite antenna (13/18V, 420mA max).
- Powering on the TV requires several seconds to load programmes. Do not rapidly turn the TV off as it may cause the TV work abnormally.
- The Picture is Only for Reference.
- Check the jacks for position and type before making any connections. Loose connections can result in image or colour problems. Make sure that all connections are tight and secure.
- Not all A/V devices have the ability to connect to a TV, please refer to the user's manual of your A/V device for compatibility and connections procedure.
- Before connecting external equipment, remove the mains plug from the wall socket. Otherwise, it may cause electric shock.
- The location and names of the terminals on the TV may vary according to TV model, and not all terminals available on all models.

Item	Description
Power indicator	The light is white in standby mode.
Power button (Standby / Source)	Press the button to turn the TV on. Press it again to bring up the control menu and move the focus between different inputs. Long press the button to make a selection.
Antenna/ Cable	Connect an outdoor VHF/UHF antenna or cable.
Satellite	Connect an outdoor Satellite antenna.
HDMI	Connect an HDMI cable from an external equipment.
HDMI (eARC)	Connect an HDMI cable from an external digital audio system. Please note that it works only when the TV is connected to the audio receiver that supports the eARC function.
USB	Connect a USB device for browsing photos, listening to music and watching movies. Note: • When connecting a hard disk or a USB hub, always connect the mains adapter of the connected device to the power supply. If a USB 1.1 or USB2.0 device requires more than 500mA or 5V, the USB device may not be supported. Max supported current for USB 3.0 device is 1A (only for some models). Exceeding the max supported current may result in damage or data loss. • Certain digital cameras may not be compatible with the TV.
DIGITAL AUDIO OUT	Connect an optical cable from an external digital audio system.
LAN	Connect an Ethernet cable to access a network or the Internet.
COMMON INTERFACE	Insert the CI+ module for watching scrambled services like pay-tv channels or some HD channels. Note: • Do not repeatedly insert or remove the Common Access Module as this may damage the interface and cause a malfunction. • You must obtain a CI+ module and card from the service provider of the channels you want to watch. • CI+ is not supported in some countries and regions.

Remote Control

► Buttons of remote control

BUTTON	DESCRIPTION
	Power on/Standby
	Select input sources
HomeOS	Open HomeOS experience
	Activate AI assistant. This feature cannot be enabled in some scenarios.
Number button	Select a channel or input numbers
Four colour buttons	Special function buttons
GUIDE	Display the Electronic Program Guide; for models with  button, long press to be used as CH.LIST
CH.LIST	Display the Channel List on the screen
►	Playpad keys
	Press to enter Menu
 (▲/▼/◀/▶)	D-pad (up/down/left/right navigation buttons); when watching TV programmes, press left or right button to display the current programme information
OK	Confirmation button
	Under the Menu or App, return to the previous place; for some models, long press to be used as EXIT
EXIT	Exit the menu or exit the application
	Select a channel or input numbers and special function buttons
	Display the Home screen
VOL	Volume (up/down)
CH	Channel (up/down)
	Mute and restore sound; for models with  button, long press to be used as SUBTITLE
TEXT	Turn on/off the teletext function; for models with  button, long press to be used as INFO
INFO	Display the current program information; for models with  button, long press to be used as TEXT
APP buttons	Quick access buttons to APP
SUB./SUBTITLE	Activate or deactivate the subtitle mode; for some models, long press to be used as AD
AD	Select the AD mode(supported in limited countries/regions/models)
	Activate the microphone

NOTE

- The included remote control will vary depending on model, country/region. Check information according to the actual remote control in the accessory bag.
- Buttons listed here are for reference only. Actual remote control may vary depending on model, country/region.

► Installing Batteries in the Remote Control (for battery-replaceable remote)

1. Slide the back cover to open the battery compartment of the remote control.
2. Insert two AAA size batteries. Make sure to match the (+) and (-) ends of the batteries with the (+) and (-) ends indicated in the battery compartment.
3. Close the battery compartment with the cover.

NOTE

- Dispose of your batteries in a designated disposal area.
- Do not mix battery types or combine used batteries with new ones.
- Remove depleted batteries immediately to prevent battery acid from leaking into the battery compartment.
- If you do not intend to use the remote control for a long time, remove the batteries.
- Leaving a battery in an extremely high temperature surrounding environment that can result in an explosion or the leakage of flammable liquid or gas.
- Battery chemicals can cause a rash. If the batteries leak, clean the battery compartment with a cloth. If chemicals touch your skin, wash immediately.
- Risk of fire or explosion if the battery is replaced by an incorrect type.
- Disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion.
- A battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas.

► Charging the Remote Control (for solar powered remote)

You can charge the remote by exposing the solar cell to light or using a USB type-C cable(not provided).

The type-C port is used for quick charging. When charging by type-C port, the red indicator will blink. When fully charged, the indicator will stop blinking first and then turn off.

NOTE

- Product image is only for reference, actual product may vary in appearance.
- The battery is not user replaceable. Do not try to remove or change the internal battery by yourself, cause it may cause damage to the battery/device, personal injury, fire or explosion.
- When you do not use the remote control, place it face up to make the solar cell expose to light. This will extend the remote control's operating time.
- Leaving a battery in an extremely high temperature surrounding environment that can result in an explosion or the leakage of flammable liquid or gas.
- Battery chemicals can cause a rash. If chemicals touch your skin, wash immediately.
- Disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion.
- Place the remote control correctly to prevent it from falling down.
- A battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas.

► **Pairing the Remote Control (only for Bluetooth remote control)**

Pair the remote to the TV after you power it on. Keep the remote control within 3 metres from the TV. Press any button (except power and mic button) to pair.

 NOTE

- In special cases, press and hold [] button to pair.
- If an unknown error occurred with the remote, then it could have been caused by interference. Try to remove what's causing the interference and pair it again.
- If an unknown error occurred in the remote control while the battery power is normal, you can take out the batteries, press any key for 1~2 seconds, and insert them back. Then the remote control will work normally. (only for battery-replaceable remote)
- If an unknown error occurred in the remote control, please recharge and activate the remote control. (only for solar powered remote)
- The remote cannot be paired to the TV while the TV is in standby mode.

► **Remote Control Operation Range**

1. The remote control can work at a distance of up to 8 metres in front of the TV set.
2. The remote control angle: taking the remote sensor as an apex, 6 metres away, its controlled horizontal angle is within $\pm 30^\circ$, while the vertical angle is within $\pm 15^\circ$.
3. The operating distance may vary depending on the brightness of the room.

Disposal of this unit

Product should not be damaged, dismantled or thrown in municipal waste. It should be packed and handed over to authorised re-cycler.

Other Information

Recycling/Licenses

WEEE (Waste Electronic Electric Equipment) European Directive 2012/19/EU

This symbol on the product or on its packaging indicates that this product must not be disposed of with your household waste. Instead, it is your responsibility to dispose of your waste equipment by handing it over to a designated collection point for the recycling of waste electrical and electronic equipment. The separate collection and recycling of your waste equipment at the time of disposal will help to conserve natural resources and ensure that it is recycled in a manner that protects human health and the environment. For more information about where you can drop off your waste equipment for recycling, please contact your local city office, your household waste disposal service or the shop where you purchased the product.

Battery

For replaceable battery:

In accordance with the Battery Directive, used batteries should not be disposed of in the domestic waste. Dispose your batteries in the collection containers specific for this purpose in retail stores.

For built-in battery:

In accordance with the Battery Directive, the battery in this product should not be disposed of in the domestic waste. The built-in battery in this product is not user replaceable, please contact your service provider for more information. Dispose the product to waste disposal service and they will take appropriate measures for the recycling and treatment.

ROHS (Restriction of Hazardous Substance) European Directive 2011/65/EU

This European directive limits the use of dangerous and hazardous substances which are difficult to recycle.

This allows recycling easily the EEE and contributes to the safeguard of the environment.

Substances included in this product match to the RoHS directive.
